*Come join with other CBO leaders and decision makers for a day of exploring the opportunities and challenges of the movement toward Evidence-Based Practice.*

The emergence of EBP has resulted in many thoughts regarding how best to approach our services for children and their families. Today most CBOs are struggling to keep up with the shift toward Evidence-Based Practice without a road map to guide us along the way. If our organizations are to serve our communities effectively, we must learn about these proven models, and adopt those that are relevant and accessible.

## Participants will:

1. Learn from experts and from each other
2. Understand the distinction between Evidence-Based Treatment models (EBTs), Evidence-Based Practice (EBP), and Practice-Based Evidence (PBE)
3. Develop achievable, agency-specific action steps towards continuing to (a) improve your treatment outcomes and (b) achieve mission and contract goals

## Presenters:

- Keynote Speaker: Bill Carter, *CEO, California Institute of Mental Health (CIMH)*
- Closing Plenary Remarks: Patricia Marrone Bennett, *CEO, Resource Development Associates*
- Todd Sosna, *California Institute of Mental Health (CIMH)*
- Peter Greenwood, *Association for the Advancement of Evidence-Based Practice (AAEBP)*
- Jim Walt, *Client Directed Outcome Informed Practice*
